WHEELTOP EDS Electronic TT 2x12 TT7110 **(Upgrade set)**

Product code: AA006_MAN

Availability: 2 - 3 Days

Price: R29,767.00

Short Description

TT7110

Description

TT7110 TT Hydraulic Brake Group Set

Compared to a mechanical derailleur, the Wheeltop Electronic Derailleur allows you to switch speeds easily. Instead of changing one speed at a time, you can switch directly from 3-speed to 14-speed by continuously pressing the button, improving efficiency in the switching process.

Bluetooth and ANT (Adaptive Network Topology) ensure a stable wireless connection between the controller and derailleurs, offering a responsive, smooth, and precise gear shift. Wireless design makes installation easier and offers an untethered ride.

Featured with carbon fibre, the EDS TT is lightweight, extremely durable, sleek, and proficient in shock absorption, providing riders with a nimble and comfortable biking experience.

Long Battery Life, the battery supports approximately 20,000 operations and charges of 800 times.

Fine-tune and shift gears, calibrate, upgrade firmware, record ride data check battery level, and switch modes(leisure or race) in our app.

The IP67 rating enables confident cycling in rainy weather, crossing streams, and cleaning the device, with water immersion resistance of up to 1m for 30 minutes, ensuring worry-free rides.

Specifications

Brake Lever Length 140mm Adjustable Range 8mm

Battery Type CR2032

Speed Compatibility R 3-14s

Weight L 209g R 213g

Rear Derailleur (RD) Speed Compatibility 3-14s

Low Cassette 10 -11T

Maximum Cassette 50T

Total Range of Gear Change 40T

Weight 320g

Battery Capacity 800mAh

Front Derailleur (FD) Speed Compatibility 1/2s

Chainring Compatibility 50T

Angle of Chain 61°-66°

Installation Type Band-On/Braze-On

Battery Capacity 500mAh

Hydraulic Brake System

Braking Bilateral Braking
